DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is vague and indefinite. On lines 14-16, the phrase *"no wall is provided between the rotation shaft and a contact area...are in contact with each other"* is unclear. What structure are applicants claiming? If there is no wall between the shaft and the contact area, what structure allows the first and second rotatable body to be in contact with each other?

Allowable Subject Matter

Claims 1-11 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
